

Hello CLMN volunteers,

My apologies for forgetting to include a link to the newsletter in this message the first time! You can find it by clicking the "CLMN Newsletter" button on our CLMN website, or by clicking here:

[CLMN Newsletter](#)

Summer is flying by, as usual! It was great to meet many of you at our annual aquatic plant identification workshops this past June. I hope you enjoyed the experience, and if you have any questions or comments regarding the workshops, please let me know.

Your Spring-Summer issue of *The Monitor* is ready for viewing on the Citizen Lake Monitoring Network website. Be sure to check out the announcements on page 2 to learn about our first Lake Learning Day, a joint educational day co-hosted by the Citizen Lake Monitoring Network, Wisconsin Odonata Survey, and the Wisconsin Mussel Monitoring Program. Page 2 also announces the plans for the 2018 statewide Aquatic Invasive Species (AIS) Snapshot Day. We need your help to look for early populations of AIS, so please consider participating in this year's Snapshot Day on August 18th!

Thank you for all of your efforts to protect Wisconsin's lakes!

Sincerely,

Paul Skawinski
Wisconsin Citizen Lake Monitoring Network Statewide Educator
